OBJECTIVES:

I am looking for an opportunity in a reputed organization which will help me deliver my best and upgrade my skills in engineering and meet the demands of the organization.

EXPERIENCE:

COMPANY NAME : JBM Ogihara Automotive India pvt Ltd

Designation : Diploma Engineer Trainee

Period : June 2016 to July 2018

Roles and responsibilities:

- Oversee mechanical design phases from concept through production
- Collaborate with senior mechanical designers on large scale design project
- Selected to assist the tool design engineer in the development of jigs and fixtures using AutoCAD, Solid edge and Catia.
- Conducting the CF inspection and measuring the parts by using various scale, gauges and tools
- Auditing the Poka Yoke (Error Proof) & Kaizen performed by Production Team and approving the same.
- Countermeasure report for customer problems & field complaints.
- Ascertaining proper & adequate safety in shop floor among team members.
- Employing Kaizen in Quality department by making simple but effective gauges for checking parts
- Coordinating with Jig Maintenance and Production Control Department to achieve the periodic production targets.

ACCADEMICQUALIFICATION:

Course	Institution	Board	Year of passing	Percent age
	Jain High school	Karnataka		

SSLC	Moodbidri	Secondary education examination Board	2011	77.6%
