CAREER GOALS:

I am hunting for a position wherein I can utilize my skill and provides ample opportunity to apply all my organizational experience I gained over time, to grow and to contribute in the most effective manner by being a key and an effective team player with unlimited loyalty and commitment.

CAREER TIMELINE

FCC (Fomento de Construcciones y Contratas), **FAST Construction Ltd**, Riyadh Metro Saudi Arabia as Project Engineer - Dec'14 till date

Larsen & Toubro Ltd - Assistant Construction Manager - Feb'12 to Nov'14

ITD Cementation India Ltd – Senior Engineer. Jun'07 to Jan'12

PROFESSIONAL QUALIFICATION:

- Bachelor of Civil Engineering 2007, Anna University, Chennai, India
- Member of Saudi Council of Engineers – Associate Engineer

Key Result Areas

- ❶ Extending support for development of project schedules, master schedules, resource schedules, execution methodologies, milestones, budgets and cash flow projections; monitoring the same with respect to cost, resource deployment, time over-runs and quality compliance
- ❷ Conducting cost benefit analysis of the projects including feasibility studies and assessment of project requirements providing strategic & technical inputs on methodologies of construction; overseeing daily construction activities including program management, cost management, HSE management and quality management
- ❸ Conducting weekly progress review meetings with civil team, contractors & consultants and identifying bottlenecks/hold-points; monitoring site progress with respect to the master network and approved construction schedule; implementing modifications and improvements in completion schedule (both macro & micro)
- ❹ Reviewing quality at project site by exercising rigorous quality control plan & procedures, implementing ISO or similar systems, conducting onsite inspections followed by corrective preventive actions
- ❺ Guiding the entire Civil Team of Supervisors & Engineers on all technical and administrative matters for smooth progress of work
- ❻ Anchoring on-site construction activities for ensuring completion of project within the time & cost parameters and effective resource utilization for maximizing the output & savings
- ❼ Coordinating with external agencies for techno-commercial negotiations, preparation of tender / contract documents, cost estimates, including billing, variation proposals
- ❽ Acting as an interface between construction team & design team; coordinating among, contractors, consultants and clients; tracking projects with respect to budgeted cost, demand forecasts and time over-runs to ensure timely execution of projects
- ❾ Managing project activities like conceptualization, procurement, scheduling, progress monitoring, site management, manpower planning
- ❿ Updating reports on ongoing projects overall progress, procurement, executions progress and invoicing status & Managing the project start-up contracts including material reconciliation
- ⓫ Regulating site measurements for certification of contractor bills; sending various MIS reports to the management like monthly project reports, monthly performance reports and job cost report

Highlights:

- ❶ Played a key role in taking responsibility on material/machinery management to conclude projects completing DMRC project in New Delhi on time and within budget
- ❷ Merit of identifying new vendors such as skilled man Power supply agency for Rebar fixing, Concreting and maintenance in order to avoid cash flow by adopting sub-contracting company, which led to reduction in cost by **10% to 25%**
- ❸ Successfully executed key projects such as Chennai Metro Rail Ltd, Delhi Metro rail Corporation and overcame struggle on live traffic and to work in between residential areas
- ❹ Received several appreciation from clients for people management, advance planning while performing critical activities in a constraint working area and for proper communication in time

Annexure

Projects
