CAREER OBJECTIVE

To obtain practical knowledge and experience in a well-established firm that offers good opportunity for career advancement and contributes my educational skills for the growth of the organization. Keenly interested and willing to exert extra efforts in a dynamic environment to acquire new skills and improve existing knowledge base to there by deliver results and look forward to higher levels of professional advancement.

ACADEMIC QUALIFICATIONS

Qualification	Specialization	Institution	University/ Board	Percentage / Grade	Year of passing
DIPLOMA	Mechanical Engineering	Maria polytechnic college	Anna University	70%	2016
Higher Secondary	Plus Two	St. Thomas HSS Poonthura	Kerala State	57%	2014
High School	SSLC	St. Joseph HSS Palayam	Kerala State	65%	2011

PROJECT

AIR LEAK DETECTION SYSTEM

The main aim of our project is intimate the alarm signal when there is any leakage in the fuel tank. Air leakage detector is a project to intimate the alarm signal when there is any leakage in the tank. T he field of mechanical engineering has a theme word called change as its backbone. In our project the main parameter is pneumatic pressure (30m to 40m bar).

The main components of project are sensor units, microcontroller units, power supply units, display units. Sensor are using for detection of electromagnetic radiation from the natural sources. Then this signal will transfer to microcontroller units. The main function of microcontroller is storage unit. Then this data will transfer to display unit as a buzzer sounds.

EXPERIENCE

Company: LOIUS & SONS

Position: FIRE FIGHTING TECHNICIAN

Period: APR 2016 – JAN 2017

Duties & Responsibilities

- To visit and inspect sites for their fire prevention system installation for sanction of fire safety certificates
- Attend to all calls and resolve customer queries pertaining to various fire related issues
- Maintain best possible working conditions with regards to fire safety
- Impart training to subordinates and new joiners for operating fire equipment and other firefighting services
- To help organizations design and develop fire exit plans
- To coordinate with event organizers for installing necessary fire systems
- Assist Chief Investigating Officer in examining the causes of fire
- Regularly check all fire extinguishers and fire equipment for serviceability
- Maintain record of all fire services delivered
- Generate necessary reports for management to review daily performance

TECHNICAL SKILLS

➤ **DIPLOMA IN AUTOCAD (Duration: 1 month)**

- MS OFFICE
- QA/QC
- NDT
 1. Visual Inspection
 2. Radiographic test
 3. Ultrasonic test
 4. Magnetic Penetrate test
 5. Liquid Penetrate test
- Welding
- Piping and pipe line Engineering
- HVAC

PERSONAL SKILLS

- ◆ Good communication and interpersonal skills.
- ◆ Strong team-working skills, with an ability to motivate others and to manage teams and projects;
- ◆ Flexibility and an ability to compromise;
- ◆ Willingness to accept responsibility and make decisions.
