Adilpthan2011@gmail.com

Dear Sir.

Please accept my enclosed resume in application for suitable position. When you review my resume, you will find that my background includes **Quality control, Piping, & NDT Engineer** along with various projects experience.

My passion for the industry always helped me to make a foundation through my B.Tech Mechanical Engineering. 'Advanced Certificate' in 'QA/QC Engineering helped me to polish my knowledge with international standards and best practices. The following courses and certifications helped me to enhance my professional knowledge to American & International standards.

- QA/QC ENGINEER MECHANICAL
- PIPING DESIGN ENGINEER
- ASNT - SNT-TC - IA Level II
- Lead Auditor Quality Management System : ISO 9001 : 2007

I have a proven track record with my previous employers. I was able to get enough exposure to clients, I believe my strengths; Experience, Trainings & Certifications and Mechanical Engineering Graduation will help me to contribute my best to your team.

I am looking forward to meet you in person and it will be a nice opportunity for us to discuss more about this job. You can contact me on e-mail and my telephone number.

Thank you for your valuable time & consideration.

Sincerely,

ABDUL KAYUM.

ABDUL
KAYUM
