Title: Application for Job as developer

Dear Sir,

I write to express my interest in the position as Software Engineer in your company. My responsibilities included the designing, development and debugging of the application. Most of the projects that I have dealt with are windows and web application.

Experience has taught me how to build strong relationships with all departments in an organization. I have the ability to work within a team as well as cross-team. I can work with web engineers to resolve technical issues and implement technical enhancements, work with the development department to implement design and functional enhancements.

Thank you for your consideration.

Sarath .K.S
